### The Real Secret of Rejuvenating the Face

She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret any one may possess. The aged faded, or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner by the nightly application of ordinary mercolized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there's no inconvenience at all, and no one suspects you are putting anything on your face. The mercolized wax, procurable at any plus gare (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckies, black-heads, pimples, moth patches, liver spots and fine surface wrinkies.

For the deeper wrinkies, an excellent recipe is; Fowdered saxolite, 1 oz., disable face in the solution produces quick and wonderful results.
